				Processing						Structure	

Professional Experience

NLP based Chatbot, HyperCube Ltd.

June 2021 - Present

Model deployment, system design and maintenance using AWS Amplify, AWS Api Gateway, AWS Lambda, AWS Sagemaker.
Front and backend development using Flutter/Dart/Swift programming languages.

[AWS](#) [Dart/flutter](#) [Swift](#) [Docker](#) [Git](#)

Database design and deployment, HyperCube Ltd.

March 2021 – May 2021

Designed MySQL database schema and deployed it in Azure.
Using web application API to connect web app with the database.

[MySQL](#) [Azure](#) [Python](#) [Git](#)

Supply Chain Optimization, HyperCube Ltd.

December 2020 - February 2021

Research on optimization problems.
Using linear programming and integer programming methodologies in Gurobi Python and C++ for supply chain optimization.

[Python](#) [C++](#) [Git](#)

Video Anomaly Detection, HyperCube Ltd.

May 2020 - November 2020

Research on deep learning based activity detection algorithms.
Constructing and deploying algorithm to detect anomalous events in video.
Transferring the analysis data to Azure DB deployed in cloud.

[Python](#) [OpenCV](#) [PyTorch](#) [MySQL](#) [Azure](#) [Docker](#) [Git](#)

Academic Qualifications

Tohoku University Sendai, Japan

MSc. Elementary Particle Physics [2018 - 2020]

Tohoku University Sendai, Japan

BSc. Physics [2014 - 2018]

Tokyo University of Foreign Studies Tokyo, Japan

Associate Degree, Japanese Language [2013 - 2014]

Research/Talks

Masters Thesis : Machine Learning, Deep Learning, Data Analysis

Simulation of particle collisions and their reaction in particle detectors using C++.
Designing particle detectors using C++ framework.
Analyzing data read by particle detectors using machine learning and deep learning algorithms.

[Python](#)

[OpenCV](#)

[PyTorch](#)

[C++](#)

[Git](#)

[CMake](#)

Conference Presentation: Japan Physical Society Annual Meeting

Full Detector Simulation of Pair Monitor and Application of Machine Learning to Determine
Determine Beam Size
Nagoya University, Nagoya, Japan [March '20]

Conference Presentation : International Workshop on Future Linear Colliders

Search for weakly interacting dark matter in the International Linear Collider
University of Texas, Arlington, Texas, USA. [Oct '18]

Language Skills

English, Business Level, TOEFL iBT 110
Japanese: Business Level

MOOCs

- [Deep Learning Specialization](#) : Coursera, Stanford Online
- [Algorithm Specialization](#) : Coursera, Stanford Online
- [GAN Specialization](#) : Coursera, Stanford Online
- [NLP Specialization](#) : Coursera, Stanford Online

Categories: [Python](#) [C++](#) [Algorithms](#) [Deep Learning](#)
